NINJA FOODI AF400EU AIRFRYER MAX DUAL ZONE 2400W 9.5 L

Take mealtime to a new MAX with the large capacity Air Fryer that cooks two kinds of food, 2 ways and finishes at the same time.

Much more than an air fryer. 6 ways to cook - Max Crisp, Fry, Bake, Reheat, Dehydrate and Airfry in 2 independent cooking zones. So now you can not only make delicious main courses and side dishes, you can also reheat leftovers and get that fresh-out-of-the-oven texture. You can even gently dehydrate ingredients to enjoy homemade dried fruit, vegetable chips and beef jerky.

When it comes to cooking, timing is everything. The Ninja Foodi Dual Zone Air Fryer with a capacity of 9.5 liters will help you. Use the SYNC function of the two separate baskets to prepare two different meals with different programs, different cooking times and different temperatures precisely, so both are ready to be served at the same time! Want to feed the whole family? Using the MATCH function, you can use the same settings in both cooking zones to prepare twice as much in the same time.

The faster cooking can save you up to 65% on your electricity bill. The 4.75L baskets with non-stick coating can hold up to a 2 kg chicken in each drawer. **The faster cooking can save you up to 65% on your electricity bill.**** The 4.75L baskets with non-stick coating can hold up to a 2 kg chicken in each drawer.

*Tested against fish fingers and sausages
**Tests and calculations based on recommended cooking time for sausages using the Air Fry function compared to a 68L "A" and 71L "A+" rated oven.
